PROFESSIONAL PROFILE

I am a dedicated and versatile Computer Engineer with extensive experience in developing both web and mobile applications. My expertise lies in using modern frameworks such as React, React Native, and Angular to create intuitive and responsive user interfaces. On the backend, I have a strong command of Node.js, MongoDB, and Express.js, enabling me to build robust and scalable server-side applications.

EXPERIENCE

Zuliatec
Intern| Front-End

Maracaibo Zulia
05/2024 - 08/2024

- I developed mobile and web applications using React and React Native.
- I implemented intuitive and optimized user interfaces, ensuring a fluid and efficient user experience.
- I collaborated with an agile team to improve the user experience on the web platform.
- I performed tests and fixed bugs, reducing loading times.

Freelancer
Fingerprint recognition

Maracaibo Zulia
2024

- Development of a fingerprint recognition system for recording employee flow in an institution. The project integrated advanced knowledge in front-end and back-end development, as well as Arduino board programming and configuration.

Freelancer
Mobile App (Instagram)

Maracaibo Zulia
2024

- Development of an Instagram-style mobile app using React Native for the interface and a robust backend with TypeScript and MongoDB.
